# Summary of Information

The ships in port are Red, Black and Blue in color. A white vessel is in the poorest condition. Fishing vessels and work related vessels are among the group.

The little red one is for the purpose of fishing at sea. *This one is the first to leave port.* Some of these vessels are currently carrying drugs.

A large blue vessel which can reach a speed of 12 knots is associated with drugs and will leave this port zone on Thursday at 10:30.

This vessel is not as big as the black one. Please see attached sheet for some description of
